Our customers say that the new Bizfon 7000 system with integrated phones, network and messaging will **save you money** with its great value and **make you money** with increased productivity. Find out how this state-of-the-art communication system will **boost your bottom line**

Would you like more time in the day for you and your employees?

Would you like to simplify your business infrastructure?

Are you spending too much on telephone charges?

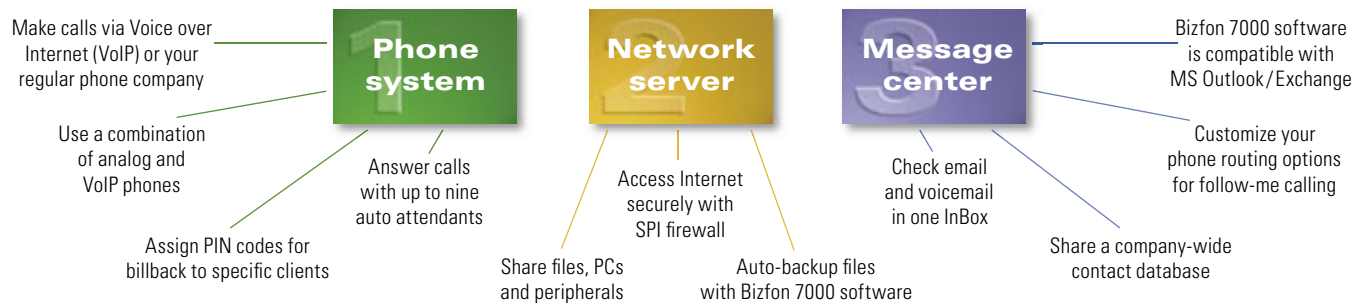

Have you ever missed a customer call?

If you answered "yes!" to any of these questions, then the Bizfon 7000 can boost your bottom line.

What is the Bizfon 7000?

The Bizfon 7000 is a state-of-the-art communication system that integrates a sophisticated phone system, a robust data network, and software tools — all working together to increase employee productivity and business revenues. Designed for companies of up to 40 employees per site, the Bizfon 7000 improves communications while simultaneously reducing cost.

The Bizfon 7000 boosts your bottom line in many business scenarios:

Launching a business: Get organized for success with one streamlined system and one streamlined price. The Bizfon 7000 brings it all together—phones, messaging, secure Internet, PC network, group collaboration.

Changing your system: Your business systems shouldn't limit growth and revenue with complexity and cost. The Bizfon 7000 reduces the cost of change and makes it easy to integrate into your existing system.

Expanding your business: Are your office systems helping or hindering growth? The Bizfon 7000 delivers critical business services in a single, easy to use, scalable system.

Visit our website www.Bizfon.com for lots of detail about the Bizfon 7000 system, and call us at **603-870-9400** for free information.
