

SoundPoint Pro

Corporate-quality Conferencing and
Business Phone Features Designed for the Desktop

Telecommuters and small businesses need the same high-quality audioconferencing capabilities they would use in a corporate office. Now, Polycom® introduces the feature-rich SoundPoint® Pro to provide corporate-quality audioconferencing capability in an elegant, personal business phone.

SoundPoint Pro seamlessly integrates handset and headset telephone functionality with crystal clear, hands-free audioconferencing in a single business telephone. All this in a personal business phone that sounds as great as it looks.

Fortune 500 Quality...

SoundPoint Pro utilizes the same industry-leading conferencing technology that has made Polycom's SoundStation® conference phones the #1 choice of corporations worldwide.

With the touch of a button, SoundPoint Pro's built in multipoint bridge lets you hold up to 4-way audioconferences with crystal-clear, full-duplex audio. Callers can speak when they want, without the clipped sentences and one-way conversations common with ordinary business speakerphones.

...Optimized for your Small Business

SoundPoint Pro's front microphone is optimized for personal use. If several associates join you, the keypad-activated rear microphone provides 360° room coverage for small group conferencing. Or you can connect the optional headset for high-quality, hands-free applications.

What's more, SoundPoint Pro costs less than you might expect. Get more done, more easily and more efficiently, with SoundPoint Pro.

- ▼ All-in-one communications capability: conferencing, handset and headset support
- ▼ Full-duplex conferencing with Polycom's patented Acoustic Clarity Technology™
- ▼ Caller ID and Caller ID for Call Waiting
- ▼ 20-number programmable speed dial
- ▼ 99-number caller history for Caller ID

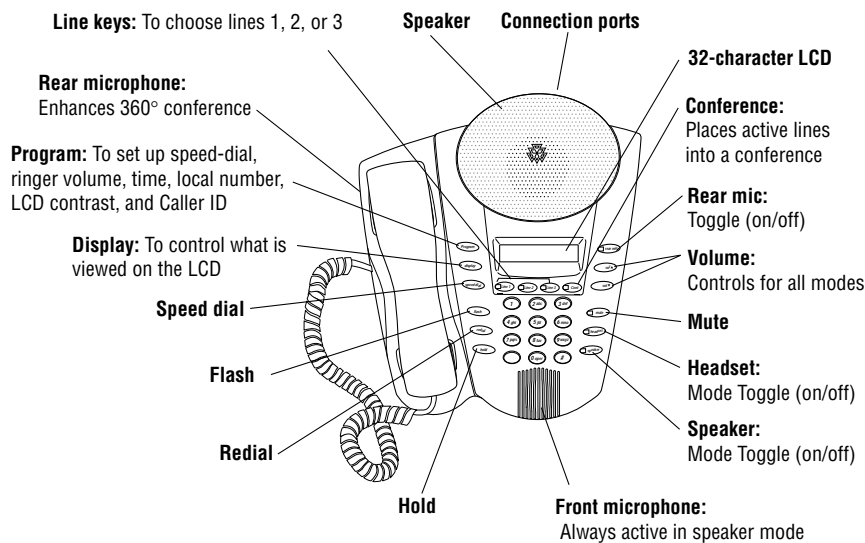

Desktop Conference Phone

Make the Most of Your Phone Time

SoundPoint Pro's multimode communication capabilities makes the time you spend on the phone more productive and efficient. Switch from personal full-duplex conference phone to 360° conference mode at the touch of a button. Or plug in a headset for true hands-free convenience. And don't worry about being weighed down with extra cables and boxes — the headset amplifier and volume controls are built in.

Professional Conferencing for Small Businesses

Get world-class conferencing in a phone tailored to the needs of small businesses and home office users. Polycom's conference phones are found in more boardrooms and conference rooms than all other systems combined. What's more, with our three-line model, you can hold four-way conferences from your desktop. Try that with any other business phone.
